PARTIAL VIEW OF OUR RANGE OF GREENHOUSES

To Our Friends and Patrons:

With the advent of another planting season we present for your perusal our Annual Catalog for 1921, it being the twenty-ninth edition of same. It offers the very best the world affords in flowering and ornamental plants for your home and garden. Only the most meritorious of each family of plants are grown.

THANK YOU—We take this means to thank the many patrons who favored us with their orders during the past season, and trust that the plants we supplied came fully up to expectations.

OREGON GROWN PLANTS—We have prepared for this season's trade the usual large and fine stock of Oregon-grown plants, such as we have been sending our customers for years. The fact that we send out such fine, large healthy plants, which always reach their destination in a perfectly fresh condition, no doubt accounts for their popularity with flower-loving people in every nook and corner of the Pacific Northwest. As it is scarcely a day's journey to any point on a railway line, it is obviously certain that it is a great advantage to buy from us in preference to sending to an Eastern florist and having to wait ten days or more before receiving the plants, and then only in a wilted and spoiled condition.

OUR PRICES—While it is true that we are not seeking a reputation for cheapness, we know that our prices are as low as good plants can be sold for and that no firm in our line of business is supplying stock equal to our for less money.

METHOD OF SHIPMENT—As a rule small orders can be sent more economically by parcel post while orders for amounts over two dollars will go by express to better advantage. Two-year-old roses, shrubs and vines being quite heavy and bulky are sent only by express at expense of purchaser.

PARCEL POST SHIPMENTS—Orders for small plants of all kinds will be sent by parcel post when requested by purchaser. Also small orders of larger plants when such is possible. It is quite obvious that our proximity to all points in Oregon, Washington and Idaho is a distinct advantage to us and our customers under the parcel post zone rates. Postage is extra for orders going to other states than those mentioned above.

Many of the larger and higher priced plants are too bulky to send by parcel post. We reserve the right to send orders containing such by express at the expense of purchaser.

EXPRESS SHIPMENTS—We recommend this method of shipment when the order is of an amount over \$3.00. Such shipments receive more careful handling and safe delivery is guaranteed in all instances. By this method of shipment we are able to leave all the earth upon the roots of the plants, which will enable them to grow more readily when planted. We always select the very largest plants our stock affords when making shipment in this manner. The customer pays the charges upon delivery of the plants but we always add extras sufficient in value to reimburse him. Express charges are very reasonable to all points in the Pacific Northwest as compared with the same from eastern points.

CANADIAN ORDERS—Only seeds, bulbs and greenhouse grown plants can be sent by parcel post to Canada. Any other plants must go by express prepaid. Every Canadian order must be accompanied with a n additional remittance of 15 cents on each dollars worth of bulbs and plants ordered, in order to take care of shipping expense.

MISTAKES—We use great care in filling and packing orders but never-the-less mistakes may occur. S should any happen with your order kindly advise us at once and it will be rectified.

TERMS STRICTLY CASH—Every article in our catalogue is priced, therefore purchasers must know their cost when making out their order. The prices are fixed on a cash basis and as our customers for the most part are unknown to us and as we do not have a system of bookkeeping, our terms are strictly cash with the order.

OUR GUARANTEE—We guarantee all seeds, bulbs and plants true to name to the extent that we will replace any which may through error prove otherwise. We likewise guarantee safe delivery of all seeds, bulbs and plants.

COMPLAINTS—If any, must be made upon receipt of the goods, otherwise they cannot be considered.

REMITTANCES—Send money by bank draft, postoffice or express money-order. Personal checks on local banks only accepted when 10 cents is added for exchange. Postage stamps will be accepted for small amounts.

C. O. D. ORDERS—Plants ordered by express C. O. D. will be forwarded promptly, purchaser paying all charges.

SMALL ORDERS—No plant orders filled for less amount than 50 cents.

OUR NURSERIES—Are situated at Clarke's Station on the Mount Scott car line. Visitors welcome during business hours.

CLARKE BROS., FLORISTS

237 Morrison Street

Portland, Oregon

Our gardens are endowed with many beautiful gifts of nature, but none would dare lay title to be Queen of Flowers other than the Rose. Its eminence is assured for all time by many endearing qualities. Easy to grow, constantly in flower, of varied and beautiful colors, of gracious forms and delightful fragrance, it is easily the most popular flower of the day. More especially is this true in the particular part of the world in which we live, where the soil and climate are such that all vegetation reaches a high state of development.

About Varieties. Our catalogue includes to a great extent the Hybrid Tea class of roses, for nearly all the finest everblooming roses belong to this class. Especially noticeable is the long list of fine yellow and fancy colored roses which grace our collection. Since the introduction of such sorts as Lady Hillingdon, Sunburst, Madame Edouard Herriott, Lyon, Rayon de Or and etc., there is indeed little more to seek in choice varieties of roses.

New Roses. Since the United States Government placed into effect its quarantine law against foreign horticultural products it is no longer possible to offer European novelties as in former years. We must await a three year period before such novelties can be offered. However, our catalogue this year is rich in new roses of American origin, six of which are indeed notable varieties. We refer to the following sorts: Columbia, Rose Marie, Premier, Mrs. Rindge, Lolita Armour, and Los Angeles. The three first named are wonderful for their healthy growing, free blooming habits while in the last three the unusual colorings of the flowers will give them a prominent place in every collection of choice roses.

About Prices. We regret exceedingly the necessity of advancing prices on our roses but it cannot be avoided. With the barring of foreign rose stock, every florist and nurseryman in the Eastern States has sought a supply on the Pacific Coast with the result that the heavy demand has affected prices. Roses will perhaps never return to the low level of values which prevailed a few years ago unless the Government should rescind its quarantine regulations which however does not seem likely.

Our Two-Year-Old Roses. These roses have all been grown in the open ground and are what is known as nursery grown. They are large, well-branched bushes, each having numerous stout canes from 18 to 36 inches long, according to variety. Every bush will bloom profusely the coming season. It is these field-grown roses on which we have gained an enviable reputation. Such roses cannot be grown in the East and certainly cannot be bought there, unless they have first been shipped from here.

These roses are in a dormant state from November to April and should be planted before growth commences, hence it is imperative that orders be received as early as possible after receipt of this catalogue. These roses should be shipped by express, although since the new Parcel Post Law went into effect it is possible to send them by mail.

Our Young Rose Plants. Those offered this season are fine, healthy plants, propagated last summer and now in three-inch pots. They have been grown cool and will, upon being planted, immediately start into vigorous growth and blossom profusely the first season, except a few of the Climbing and Hybrid Perpetual varieties, which generally do not bloom much until the second season. Being greenhouse grown these roses cannot be planted out until spring has opened up, hence early ordering is not advisable. The young roses are offered to supply a demand from planters who do not care to purchase higher priced stock, such as we offer in our large field grown roses. We can send these roses by mail, but when possible prefer to ship by express, permitting us to leave more earth upon the roots.

Tree or Standard Roses. Owing to the abnormal demand the past two years and the fact that available stock this season is lacking in quality, we shall offer no roses of this class the present season. We hope to have a good supply for next year's planting.

NEW HYBIRD TEA ROSE "ROSE MARIE"

NEW HYBIRD TEA ROSE "ROSE MARIE"

This fine new American variety first came to our notice as a forcing rose. However we as well as other growers soon learned that the variety had merit as a garden and exhibition rose. In fact we consider it one of the finest pink roses yet produced. Rose Marie is remarkable for its freedom of bloom and its beautiful buds and well formed flowers. The color is a fresh even shade of rose-pink and has fine lasting qualities when cut. The buds are long and pointed, unfolding evenly into a large full flower. Our experience with this new rose has been most gratifying and we have no hesitancy in recommending it as one of the very best ever-blooming roses of the day. Perfectly hardy in any location. Raised by Mr. Frederick Dorner of Indiana who also gave us that fine red rose Hoosier Beauty.

Two-Year-Old Plants \$1.50 Each

NEW EVERBLOOMING ROSE COLUMBIA

A grand new American pedigreed rose raised by the eminent American rosarian, Mr. E. G. Hill of Indiana. This fine Hybrid Tea rose is a cross between two well-known cut flower varieties, Ophelia and Mrs. George Sawyer, both notable for their free blooming qualities. Columbia is a giant in growth, with magnificent dark green foliage absolutely free from mildew in any location. The flowers are a bright rose pink of glistening freshness, immense in size and of elegant form. They are produced on long stout canes high above the body of the plant. Needs very little disbudding. This rose has been growing on trial in the Portland Test Gardens, the Pacific Coast trial grounds of the American Rose Society. Three most capable judges who have been scoring some seventy new varieties planted in the Test Garden have just given Columbia the highest award. Mr. Hill has been awarded the Gold Medal of the American Rose Society for producing this fine rose.

Price: Young Plants, 75 cents each; 2-year-old plants, 1.50 each

NEW EVERBLOOMING ROSE LOS ANGELES

The passing of another season has served to confirm our opinion regarding the merits of this fine new American pedigreed rose. It is making friends for itself in every section of the country and the demand is so great that no reduction in the price will be made this year. Won the coveted Grand Prize in the trials at Bagatelle Gardens, Paris, during the past summer with many of Europe's finest roses in competition. Los Angeles belongs to the Hybrid Briar class of roses in which we have such fine sorts as Lyon, Madame Eduoard Herriott and Rayon de Or. We were greatly impressed with it when we first saw it growing in the originator's gardens. The buds are long and pointed expanding into a flower of fine size and form. The color is a luminous flame pink toned with coral and shaded golden yellow at the base of petals. Its intensely rich coloring together with the heavy texture of the petals keeps each flower handsome for a remarkable long time. One of the features of this rose is its strong tea-rose fragrance. And last but not least it is a fine, strong grower throwing up stout canes of fine length and strong lateral growth, all of which gives a profusion of bloom hardly equaled by any variety in cultivation. A garden and exhibition rose of the highest degree of merit.

Strong Field Grown Plants, \$1.50 each.

MODERN ROSES OF PROVED MERIT

When a new rose reaches us from the introducer a part of the stock is immediately planted in our testing grounds to ascertain its possibilities as to quality of bloom and productiveness. Inferior varieties, when they become known as discarded. All the sorts on this and the following page have stood our test and we are cataloguing them in the belief that they will all become generally well known varieties. As our heading states they are modern roses of proved merit.

Price: Young plants, 40 cents each; 2-year-old plants, \$1.00 each (except where noted).

A. R. Goodwin—Coppery orange red passing to salmon pink as the flower expands. A superb combination of colorings which is most striking and attractive. One of the most distinct new sorts and a most valuable addition to our list of fancy roses.

This fine sort is of strong vigorous growth and spreading habit with thorny light green canes beautifully furnished with bright green leaves. The buds are long and pointed, of a deep coral red color shaded to orange yellow at the base of petals. Opens into a finely formed flower of wonderful shade of rosy scarlet flushed with shrimp and apricot tints.

Improved Rainbow—This beautiful rose is all that its name implies—an improved form of that well-known ever-blooming rose, Rainbow, which, it will be recalled, is a sport from Papa Gontier, one of our finest bedding roses. The habit and growth is identical with the older varieties but the blooms are very distinct, being a bright scarlet heavily dashed and striped with golden yellow.

The flowers are of fine size and build, double to the center. Color a rich shade of cerise-crimson. Similar to that in the variety Helen Gould, but far superior to that variety in growth and size and freedom of bloom. White Killarney—This elegant new rose first made its appearance in a well-known New England nursery, where it sported from that famous Irish Rose, Killarney, now grown more extensively for cut flowers than any other variety. However, we have found the new visitor far superior to its parent as regards vigor, size of flower and ability to resist disease.

The most satisfactory, desirable and popular of all garden bulbs. Nothing else that we know of costs so little and grows and blooms so readily in any soil or climate. They grow and bloom readily with but little care or attention and make a display in the garden unequaled by any other bulbous flower. Gladioli are of the simplified culture. Can be planted at any time from March to June, either in beds by themselves or among your roses and shrubs. Our bulbs are of the first size only and every one will bloom the first season. We offer two fine collections of named varieties which include the very best and most distinct sorts in commerce. Our mixed Gladioli are likewise first size bulbs and will bloom quite as freely as the named sorts.

This wherever known is universally acknowledged to be the most showy, magnificent, hardy evergreen shrub that grows. It will thrive in any good soil without any special preparation, and in the full blaze of the sun, but it is more luxuriant in good, well prepared soil of leaf mold and muck and peat mixed and in partial shade. The broad, thick, evergreen foliage, with its glossy richness, would alone entitle it to a place foremost in the rank of evergreen shrubs, but when, in June, this mass of luxuriant foliage is almost hidden by the magnificent array of beautiful flowers in all colors from white to purple, the effect is simply grand. The plants we offer are strong and bushy, well set with flower buds, and will flower nicely the first year. Choice named sorts, \$3.00 to \$4.00 each.
